MONEY, BONDS AND STOCKS.

A Decrease of Activity in New York, with a Feverish but Strong Closing. NEW YORK, May 3.-Money on call was may at 14 @2 per cent., the last loan being made

at 2, closing offered at 2. Prime mercantile paper, 526 per cent. Sterling exchange was dull but steady at \$4.86 for sixty-day bills and \$4.88 for demand.

The total sales of stocks to-day were 886,309 shares, including the following: Delaware, Lackawanna & Western, 31,050: Erie, 20,875; Lake Shore, 14,425; Louisville & Nashville, 9,425; Missouri Pacific, 11,835; Northwestern, 5,920; Northern Pacific preferred, 29,878; Oregon & Transcontinental, 31,250; Pacific Mail, 3,945; Reading, 70,800; Richmond & West Point, 28,278; St. Paul, 37,361; Texas Paeific, 4,720; Union Pacific, 17,690; Western

Union, 17,255. The stock market was less active to-day, and its course was irregular, though generally weak in the forenoon, and feverish but stronger later in the day. The London prices this morning were again higher, and purchases for London account were made in this market which gave a Btrong tone to the early dealings, but the traders were not yet ready for an advance and there was very heavy selling from them for both the long and short accounts, and the improvement was quickly stopped. The pressure was particularly severe against the Gould stocks, and Missouri Pacific and Manhattan were most prominent in the decline. At the low figures, however, there was renewed purchasing for the "long" account, and though traders and "bears" resisted the advance, giving the market an unsettled and feverish appearance, a marked gain was made in most of the list after that time. The "bulls" who were sellers yesterday were again buyers to-day, and there were evidences of an early renewal of the upward movement. The special feature of the upward movement. The special feature of the afternoon's advance was Northern Pacific preferred, which was favorably influenced by numerous rumors in regard to the business of the company, and it touched its highest price in the last hour. The Gould stocks followed closely, Kansas & Texas being the only stock, beside Northern Pacific preferred, which shows a marked gain for the day. Missouri Pacific was also very prominent in the late rise, as was also also very prominent in the late rise, as was also Oregon & Transcontinental and Richmond & West Point, the late heavy buying of the last-mentioned stock leading to the expectation that something of importance was to come out in the near future. The coalers and grangers were very active, but their movements were compar-atively unimportant, though some "bear" cap-ital was made out of the apparent decrease in the St. Paul earnings for the last week in April.
The advances at the opening extended to | per cent., but there was little further improvement, and the market almost Immediately became weak, and with Missouri Pacific in the lead, declines ranging up to 2 per cent. were established. The course of prices was turned upward before noon, however, and Northern Pacific preferred became the leader of the market. The tone of the dealings was very leverish throughout the afternoon; frequent changes from strength to weakness were made, and the market finally closed rather heavy. The great majority of stocks are fractionally

ferred is up 12 and Kansas & Texas 11. The ratiroad bond market was again more active, and notwithstanding the weakness in the share list, generally strong. The feature of the day was the Fort Worth & Denver firsts, which rose 1 to 87, on sales of \$322,000 out of a total day's business of \$1,692,000. The International firsts sold, ex-coupon, to-day, and it is reported that the lease to the Kansas & Texas has been set aside, which will be of benefit to the latter, as it has had to make good the interest which the former failed to meet. Chesapeake & Ohio Southwestern seconds rose 2, to 68, and C. C. C. & I. consols, 2, to 113.

Cheese dull and easier. CHICAGO, May 3.-Reports from outside points were very conflicting, this morning, but they only added to the interest now attached to the wheat trade. The opening price on 'Change was slightly under last night, but the first hour regained the loss and put prices at the top points touched on Wednesday. The starting of the grain fleet from Chicago, last night, with about 600,000 bushels of wheat, about 700,000 bushels of oats and over 3,000,000 bushels of corn had very little to do with the prices. The reaction after the opening was caused by buying by the crowd who had taken profits on realizing sales for a day or two past, and were ready to take hold again. The best points of the day were touched about 11 o'clock, and the advance would have been more marked but for the liberal unloading of a prominent operator, which caused a decline of about ic from the top. The principal crop reports were from California, where it was claimed that no amount of rain or favorable weather could make a half crop, and from Missouri, where the outlook was better for crops and helpful to the "bears." July wheat opened ic off, at 83ic, sold at 83ic, and up to 84ic, closing at 83ic. Corn was firm from the opening to the close, and a few houses supposed to be short on May were obliged to pay fancy prices to obtain it. Sales for the month ranged from 56ic up to 57ic, closing at 57c. Other futures were only moderately active, and after opening steady at last night's figures, made slight advances, which were sustained to the close. July sold from 55i @55ic up to 55ic, closing at 55i @55ic. Oats were without special interest, except for May, which sold up to and have been more marked but for the liberal interest, except for May, which sold up to and closed at 33 c. The feature to the provision market was the strength and advance in lard. There is a large outward movement to Liverpool at 18c per 100 pounds, and 9,000 tierces were taken here yesterday. Stocks are low. There is a fair short interest, and English parties who are "long" show a disposition to squeeze the "shorts." Prices were advanced .10 @.15c.
May sold at 8.05@8.15c, and closed at 8.10c.
July advanced from 8.10c to 8.25c, and closed at 8.22 c. Pork was slow, with trading chiefly in July, which sold at \$13.80 @ 13.95, and closed at \$13.90. Short ribs were quiet, with sales for July at 7.421 @ 7.50e, closing at 7.471c. The leading fut-tures ranged as follows:

INDIANAPOLIS MARKETS.

Trade More Active with the Appearance of a Warm Suu--Prices Firm.

INDIANAPOLIS, May 3. In most departments trade was fairly active to-day. A number of buyers were in and mail orders were numerous. The feeling prevails that the volume of business this month is to be quite satisfactory. The money market is easy. stocks carried by the retail merchants light, and a more active grain and provision market are among the favorable conditions. The unfavorable outlook for the wheat crop is the most serious drawback. But Indiana does not depend so much upon its wheat as upon its corn and hog crop for the State's prosperity. Dry goods men were having a big trade to-day; the firm tone to prices rather stimulates business in this line. Grocers were quite busy, coffees and sugars moving out more freely than last month. In the grocery line there is really no article the price of which is downward in tendency; even canned goods, which usually go off a little at this season of the year, are in light supply and very firm. Dried fruits are selling some better, but rule weak in price. Druggists are having an excellent trade, with firm prices as a rule; especially is this true of paints and oils. The seed market is less active, the wants of the farmers being about supplied. There is some-thing doing in garden seeds; prices steady and unchanged. Hardware men, lumber dealers, brick-makers, all report business active with them. The produce markets are moderately active. Irish potatoes weak in price and in good supply. Early vegetables in good supply, and prices weakening in their tendency. Poultry firm, eggs weak, butter steady at quotations. The other markets are moving much in the same rut of several days past.

GRAIN. There were but few buyers on Change to-day and bidding was tame. The Indianapolis Market Report says: "Receipts and shipments show a falling off. Local receipts are decidedly smaller, inspections for past two days being 45 cars against 77 for previous two days. Offerings of grain from the country are very light. Shippers report the demand from the East lessening; from the South an increased inquiry, but at prices a little too low for shipment from this territory. Wheat offerings are extremely small, and prices that are paid are on a basis too high for millers to grind at a profit. Sales of No. 2 red at 89c, track, are reported. Corn market is rather flat. White grades are about unsalable. Offerings from country are smaller and it is hoped that in a few days the surplus here will be disposed of. Other grades are in smaller supply, and although the demand is small they are disposed of readily. Choice ears sell readily at 51½ 255½c. Oats are in demand at unchanged prices. No. 2 white, salable at 36c; No. 2 mixed at 33½c. Feeds are quoted unchanged. Bran selling at \$17@17.25; fine-ground hominy feed at \$18; corn bran at
